Paco Those look Awesome. How big are they? Are they tandem? After watching Brad Bohlen's tying videos on YouTube, I think I got the tying techniques down, judging from your pics it looks like I need longer feathers. Sorry for the many questions, trying to learn as much as I can, I HAVE to catch more toothies, I caught a musky once that ate a bluegill I had caught, ever since then Ive been interested. That and the first pike on the fly sealed that deal.
