In those riff, any slack water on the banks where we might find a few? You know the river, I don't so I'll do whatever you suggest. I put you on fish up on the D so you can return the favor on the "L". Phil got oars? I hope so. I'm not towing anyone down river again. :)

Is there room to park the trailer and squaremobile?

I remember doing a rafting trip there when I was 17-ish. It was sometime in mid-May. As we got later in the day and closer to Jim Thorpe, I do remember seeing bugs and rising fish. I was new to fly fishing so I couldn't tell you what they were but I though...."man, this would be awesome to fish if it wasn't so deep". That was almost 30 years ago and I'm 99% sure those were trouts I saw feeding along the banks in the big flats.

Yep I got oars so should be good to go...

There's a boat launch there so you should be good with the trailer and box car.

I haven't floated this section in a while but I know some good riffly runs I took my bike to last year...like my avatar pic
