Thats one stream I do not understand...Bakers Run. I have never fished it nor care to fish it. I know why it is stocked but I do not think it should be. My parent's neighbor down the street goes there everytime they stock and gets his 5 and leaves. He will take everyone possible with him so they all get their 5 then leave. To me its a joke like taking a bucket of fish and dumping them in your bath tub. I feel bad for the few natives and wild fish that are in there.

I guess you are right about looking into the warranty. If I'm only going to use it a few times a year I can't see spending a ton of money on it but I do want something that is comfortable to use. I mostly fish my G Loomis I believe its a GL4 9' 6wt (I built it 6 or so years ago and since it has been discontinued) for trout and really love that rod. I just don't want to end up with some big clunky rod that isn't fun or real practical to fish with.
