Yes, its in Venango county. I'll be out there for 4 days and will have free time each day so I'll be exploring as many streams as possible.

StreamerGuy - Can you share the name of the PITA stream via PM so I can save the travel time and avoid that one. I have the GPS Fishing Guide for iPhone so finding the Streams won't be an issue.

I'll check out the one closest to Franklin that's on your list and let you know what I find when I return.

FYI to All, I'll have time to travel a bit further affield to adjacent counties if anyone has additional suggestions they are willing to share, I'd love to hear them I may never get back out that way so I just want to make the most of my trip
