As far as keeping the fish, i prefer not to keep fish in dhalo special reg areas. And as far as the damage to the fish, yea it was out of the water longer then id usually care for, and not treated as delicately as i usually would. But the fact of the matter was i don't expect that fish to live past tomorrow anyway seeing this stream is poached ethically and unethically almost every day.

Oh ya, if it's DHALO you can't keep fish anyway right now. Good call.
