this is my plan for our two(2 and 4 years), you can prob get all the stuff to build it for around \$50 maybe less. but i figure a 6'6" 2wt would be small light and perfect for sunnies and gills...

A 2wt is probably not a great plan for a 2-4 year old. Most adults can't cast a light line like that very well, how is a young child going to do well with it?

Do your kids a favor and get them at least a 4wt IMO.
