Really nice fish. I'll make it up there someday.

Took the words out of my mouth. Those are some beautiful fish and it looks like you had a great trip. Thanks for sharing the report.

Maybe I'll get there later this season... maybe. It's so hard to drive from Ohio and pass by all the great water in Central PA. I just can't convince myself to keep driving. 4 hours in the car to central PA or 6 hours to the Delaware? It is on the list, but man, two extra hours is a tough pill to swallow. I think I'd need to have 3 days for a trip like that in order to convince myself to spend the extra time in the car. A one nighter is not going to cut it.
