I went to Valley today. Didn't catch anything but I learned a few things and realized a few things that need a lot of work still. I also think different leader and tippet would help. I had a 5x leader and 4x tippet. Someone there said try a 6x or 7x leader and 5x or 6x tippet.

The fish were coming up though, tons of them. I'm not sure for what. Most people were saying try caddis. The only person I saw catch one said it was on a tan caddis.
