You've already gotten the info on the LJRA and its top-notch leader, Bill Anderson. If you join, a life membership is only \$100.00. What other conservation group can you join as a lifer for only that amount? Heck, if you join as a life member, Bill will even give you an informational tour of the river. What a bargain! Bill and his group have done much to retain public access to the river through private properties that border the river. The LJRA is really a group that deserves fly-fishermen's support.
