I live in Maryland and think this would be really fun to do. The only boat I have is a Bayliner 18 which isn't exactly a fishing boat haha, but I might have access to a 16 foot Boston Whaler or similar boat if I brought a friend. I have a lot of experience driving boats in the tidal Severn River near Annapolis, but I've only driven in the Potomac a handle of times.

There's still a chance that I might not be home for the Summer, but I probably will be, and I'll know in a couple days.

I'm not sure how big of a boat or team you were thinking of here, so let know what you think.
