One of my better value purchases. Great jacket. It's just a shell, no liner, which is what I was looking for. Waterproof, windproof, draw strings on the hood and waste, good cuffs, lightweight, packable, large pockets, drains well if you wade over it.

While it's breathable, it's not the most breathable fabric out there. The body is very well vented with one of those cape like vents on the back, so it's about as good as it gets there. On a hot day, my arms get a little clammy, though. That's about the only shortcoming I can even come up with. For the price, it's the bee's knee's!
