Yeah, I'd say 5 max for fishing in the 16 footer, but it might get a little crowded depending on the number of fly guys. As soon as I make sure I'll be on the east coast this summer, I'll start making some calls and try to hunt down a boat.

Do you know the water in that area at all? I have another friend that I fish for stripers with that has a boat that would be more comfortable for a group, but I'm not sure how crowded it's gonna get up there.
