I must be extremely fortunate, because I've never fished Big Spring and only fished BFC once, so neither has contributed to my native brookie count, but I have to be somewhere in the quantity of 12 to 18 fish that are 10" or over. All from freestoners; memorable ones from here in Lancaster County, NC PA, and ANF..

1919 - NC PA

1840 - Lancaster County

0504 - Allegheny National Forest

I'm curious about 20130423\_183402; I caught this last week and could go either way or wild or stocked.
