Well I'll be invading this beautiful trout stream for the next 3 days. How are the water levels, I'm thinking a little low? Will also fish Yellow creek a few hours one day. Plan on keeping a few rainbows for our Saturday night fish fry. Have my 2wt, my "new" Eagle Claw Sweetheart, 6'6" 5wt with vintage Pflueger Medalist 1494, and a 4wt. Plan on fishing the glass rod most of the time. Pumped up to get away and enjoy the mountains, stream, my friends and some good times.
