[http://bleacherreport.com/articles/15 ... athletes-and-monster-fish](http://bleacherreport.com/articles/15...athletes-and-monster-fish) Bleacher report made this slideshow of different athletes with fish. I know TNT's NBA coverage team always photoshops pictures of players going fishing or golfing this time of year as a joke because teams are getting knocked out of the playoffs. I think it's funny to try to judge which athletes are legit fisherman vs. people who went fishing by looking at how they are interacting with the fish in the pictures.
