That's where a good, gas efficient vehicle comes into play! I tapped off my tank when I left Ephrata on Thursday morning (\$30), tapped it off for around \$20 in Liberty when I got off of 15, and then filled up before leaving Galeton (\$40) on Sunday morning.

Still driving around on that fill up, and will be til Monday or Tuesday! People knock the Volvo station wagon, but it saves me \$\$\$.
