Thanks for the heads up Osprey but this isn't my first rodeo. I've stayed at 15 different PA State Parks, over the last 20 years. I am aware and follow all PA fish and Boat Commission laws. It's funny how you seem to assume that I would be doing illegal activity because I like to eat a few trout. It's par for the course in most of the areas state parks or fishing and hunting activities occur. The locals have a deep seeded resentment towards anyone that come into their area to partake in the activities, which only they should be able to enjoy.
