Thank you. Any ideas on camping is Rothrock? I see Moshannon has cabins to rent, but it looks like a little bit of a drive to the river.

Depends on how you want to camp, if you camp very light you could walk into Baree Gorge from the Mountain Rd. and camp almost right along the river. I've seen people camping along the hillsides there several times. Plenty of other areas to do that sort of thing too. If you want seclusion but closer access to the road/vehicle you may want to scout around to the north for a site that is close to a road. (following the rules for overnight stays of course)
