Normally there is one day put aside each year to do park cleanup.. PennyPack normally has it in May.....I hope they understand that it takes much more than one day to cleanup after so many slobbs leave their items behind. There are a few gents that fishes there all the time and put out plastic bags along routes. I fill them from time to time and sometimes take my own plastic bag with me. It takes about 10 minutes to fill one to bursting level. The environment thanks me for it!!!
