Hi, Mountainbrookie - -

Mahoney's book is very good. I actually first read about this topic on Charles Meck's website. He posted a piece a few years ago titled "Match the Flower" that covered this territory in a more condensed fashion:

<http://charlesmeck.com/a20060600.html>

I think the book is great; well worth \$15.00 if you are interested in general nature study as well as fly fishing . . .
