Trip scheduled June 17-21 to Asheville NC for some sightseeing (for my lovely wife) and fly fishing for me. Have had success upon previous NC Trout FF'ing experiences in the Sparta- Stone Mt State Park area but have yet to visit what is referred to as the PRIME trout waters farther South and deeper in the Smokies. Hoping to stay put in our hotel/motel in Asheville and then drive wherever to FF when I can, which SHOULD be more than any prior visits.. Question is, does anyone here have any experience within reason of Asheville ?? From what I have seen, from any number of Western NC Trout FF'ing websites, there are tons of prime waters within 1/2 to 2 hrs drives... Any suggestions would be deeply appreciated.. Email me drfas2@aol.com if you like or cell phone 412-916-0249..

Thanks
