I would make the trip to the Davidson River which is about 40 minutes from Asheville. The fishing is not easy but the trout are huge. There is a lot of fishing pressure. It is also on the list of Top 100 trout streams in the country. I fished it once. I made the drive from SC to fish and although I only caught 2, it was still worth it. One was a 17" brown. The other was a 25" brown. I would look into it. I had wanted to fish there just to say that I have. It is awesome to stand there and watch 28" trout swim by in all directions.
