Trout Unlimited has a guy who has been assigned to the position , i can't remember the name of the title . of dealing with members and non-members concerns when they observe something they think is wrong or related somehow to the Marcellus issue. TU has a toll free number , i'd call it and find out how to get the issue on Kettle Creek looked at. If you are not a member , you should be , but anyhow i am a member and it's been awhile since i fished Kettle but if you have trouble getting attention PM me and i'll get my big mouth on the phone,
