Can you fellas post a recipie and a pic of the nymph

[This video](#) is a bit slow, but it shows the basic pattern pretty effectively. This is essentially how I tie these flies, but I use fine wire and varnish in place of the lead foil. It would be interesting to know if you guys tie differently. It is a very nice fly.

PENZZZ, you should get those VHS tapes converted to digital and post on youtube. I'm sure that a lot of folks would love to see them.

Mike.
