URL:

I have only been dabbling in fly tying over the last couple of years and I have been using my father-in-laws hooks. It is past time to get my own. I scored a huge amount of fly tying materials off Craigs List early this year and I am looking to trade some materials for a nice neat assortment of high QUALITY hooks for the following types of flies:

**Nymphs:** e.g. Prince Nymph, Pheasant Tails, Green Weenie, Stoneflies

**Streamers:** Woolly Buggers, Muddler Minnows

**Dry Flies:** CDC Caddis, Adams, Rusty and Olive Spinners, Grannoms

**Emergers:** Sulfur Emergers, Hendrickson Emergers

**Materials that I have in excess to trade are as follows:**

- \* Died Bucktails (Many Colors)
- \* Black Feathers (Huge Quantity)
- \* Pheasant Tail Feathers
- \* Tan Feathers (Huge Quantity)
- \* Hares Masks
- \* Calves Tails
- \* Moose Hair
- \* Carabou Hair
- \* Mallard Wings
- \* Marabou
- \* Various Other Stuff
