About 12 years back, I laughed at the fly fishers in my area. Then one day I tried it out. Didn't catch a dam thing which made it a challenge and I kept returning to the challenge. Now that I am catching trout, bass, muskies, etc with the flyrod i am HOOKED, and enjoy it much more than spin or bait casting. And from time to time, I will hook a fish and give a kid in the area a chance to try it out.
