Nice bass for the fly rod...but honestly that bass isn't even 5 pounds. Looks like a 3.5 to 4 pounder at best. I know a 7 pound bass in PA is around 23 inches this time of year and when it spawns then its probably a 5 pounder at best. Your friend better get that Boga Grip fixed or returned (a lot of money for it to obviously be broken) or that bass is stuffed with some lead.
