Bags for Temporary Storage of Materials

I have plastic cabinets with drawers which do a pretty good job of keeping my materials, dubbing, feathers, fur ... organized. We are getting ready to move. I know ZipLock makes a 2 gallon bag. I don't know where to get them. I figured they would be the idea way to keep stuff together in transit. Anyone have other ideas on moving/storage means? Does anyone know where to get large ZipLock bags? I need 20 or so, not 100. Thanks in advance.
