Boy can i relate to that story. I also went through about a year of recovery after an accident at work , I was living in Newville at the time and the Micheaux waters are some of my favorite also. I hope all is well for you now and stays that way. I do have one question and if you choose not to answer it i'll understand. Do they know how you contracted Lyme and do you remember being bitten if it was a tick or is it not known how you picked it up? Keep up the good work on the water there in Micheaux and may the rest of your days be blessed like the one in the pics.
