Hello All,

I wanted to post some info. for a great source I found for low priced flies. I received a order from them and have been very pleased with the quality and customer service. The company is www.fishingflybox.com out of Ks. The gentleman who owns is named Milton and very nice guy.

Basically it is a more you buy the cheaper they are type site. For instance I purchased 72 flies of various patterns and sized for .39 each and totaled with priority with shipping was \$35.00

I know a lot of us do not tie or do not tie yet and are forced to purchase premade flies. so just wanted to pass along a tested source others can benefit from.
