just a heads up to launch a boat there it now cost 75 bucks to buy a membership. I went there with the yak and so guy came over after I took everything off and said I had to buy one to kayak there. I will say it was a great lake but im not paying 75 beans to a place that I only fish once or twice a year. wade fishing is not allowed but you could probably get away this it.

there also a few jetty like things you can fish from.
