I think some of us are missing the real issue, I don't believe the issue is what the landowner will or won't allow/condone. I think the issue is the lack of respect by people today, not only kids. To give you an example, I was fishing this Saturday at a local stream and came back to my car, parked in a preserve lot to find slices of pizza stuck in my door handle and under my windshield wiper. Please explain to me where that comes from other than lack of respect for other people's property.
