Really nice flies! They look great to me. The one thing I would say is that you should crimp you barbs..

I don't fish barbless flies and I don't kill fish. Some people prefer barbed and some barbless. Nothing is wrong with either choice.

I disagree. You may not think you kill fish. Just because the fish swims away does not mean it lives. There is a certain amount of mortality with catch and release fishing regardless of using barbless vs. barbed hooks. However, there is no question barbed hooks have higher mortality.

[Barbed vs. Barbless](#)

Nothing is wrong with either choice as long as one is okay with the effects of your choice.
