I fly fish and surf fish there a few times a month. There right , I think Cape henlopen is the best for fly fishing, also the north pocket at Indian river inlet. I've fly fished the back bay later in the season for sea trout, flounder, strppers. all with a fly rod.

I would go on line or call Old Inlet Bait and tackle, also bill's sport shop. They will know whats running and were it would be best to fly fish. Good luck.
