14' 10wt, I hope that's not for your local waters?! I was planning on bringing a 4wt trout spey when I come up your way in case I get a chance to fish Pine. I'm starting to feel like I might be under-gunned...

On a side note, When I do come up it looks like I'll be travelling on a Sunday(not sure which one, yet). I believe you're open that day. I'll do my best to stop in and say Hi. Tight lines!
