Got my hair cut in the GV corporate center this afternoon and stopped around three or so. Sunny, breezy, and the water was dead clear and 62. Bugs were minimal; mostly midges and a couple caddis; no risers. Fished down from the ball field and was pleasantly surprised at how many fish were present. Probably haven't fished that stretch in about twenty years, so the runs were different, but the fish were the same. Spooky, feisty and colorful; saw and moved more than I remembered, but it wasn't easy fishing. In fact it would have been a great warm up for fishing wild brookies in the boonies. I happened to have my 8ft. 3wt. with me but a shorter rod would have made it a bit easier. Fished to about five O'clock and brought six to hand and hooked or moved about the same. Fishing the same flies I've been using everywhere else; caddis pupa, and an ant dropper. Nice escape from reality. Oh, don't attempt to drive South on 252 on a Fri at that hour!
