Yup-and set the hook with a smooth, steady motion. Like you said, not herky jerky! Give yourself a second, too. I was taught once that when I see/feel a fish take your fly, say the words, "big brown trout" and then set the hook. Someone told me that the first year I started FFing, and its worked out okay for me so far!

Wow .. I have done it wrong so many times as I still "herky jerky" way to often plus I don't wait at all. Lost way to many fish because of both.

***Barbless - Interesting post and enjoyed reading it.
