Had a great time again this year. Thanks to the mods and organizers for everything. We struggled a bit, but still caught fish on the little freestoners during the day, but the evening hatches on the big limestoners were dynamite. Tons of bugs, tons of fish, and some nice sized fish too. We were up Thursday night and stayed until Sunday. Had a late night on Thursday, so we turned in early (relatively anyway) Friday, but had a great time up at the pavilion Saturday night hanging out with friends from fishing outings past and putting a couple new faces to PAFF names too.

A few pics from the weekend:

(1) - Mifflin County freestoner Brown from Friday morning.

(2) - Rattler on Penns. Funny thing was we saw the snake swimming from the east bank to the west bank right towards two guys fishing. At first I assumed Northern Water Snake, but after the commotion near the bank when it got close to them we decided to go over for a closer look. Was probably between 3 and 3.5 feet.

(3) - Penns Creek Brown

(4) - Upstream shot of the run we worked on Spring for the Sulphurs.

(5) - Spring Creek Brown
