The only place I was willing to go was the run at the Breeches due to easy access and close to hot coffee. Caught an 18" brownie I could swear I caught twice before up there plus 2 other browns and a brook. Then as I guess I got used to the cold plus it warming up 3 or 4 degrees I crossed the walkbridge and went to the hole straight and to the right, below the stone bridge. Sure enough there was a pile of stockies in there. Kinda timid with it being open water there and there was a lot of purple stren to prove it. Got most of it up. Caught 5 more including a rainbow so I got all 3 species anyway. Every one on olive clouser crayfish. 4 other fishermen including 2 from Virginia. Even on a day like today, freezin' cold, superbowl sunday, you still cant get the place alone.
