URL:

Just got back from 4days fishing Kettle Creek.
Fished from Cross Fork to Ole Bull St PK.
Even fished Little Kettle.

Weather: sunny to party sunny highs in the mid 70s

Water: Strong flow SLIGHTLY off color Little high 52 to 56 F

Flies/Hatches Caddis, March Browns but not in big numbers
no BWO's March Browns and BWO's should get heavy soon.

Hook ups were few and far between/many fishermen on this stream up and down.
