I'm curious because I've never had any luck in the lake. Maybe I'm fishing in the wrong spots. I spend more time at Codurus Ck.

Do you fish it mainly in summer? If so, by that time the large bluegills and crappies are in deep water. It's a tough lake to crack in summer and this is especially true for FFers. Hit it in springtime and you will find many more panfish close to shore. However, by the next week or so, they start to move deep.
