in your application, I don't think I'd cut the line, your going to use it on an 8' rod, so you'll be fishing bigger waters, and just maybe will want that entire line at some point.

I DO cut my DT lines, but only to fit on teeny little reels for brookie fishing, and as gfen said, I fill 2 reels with backing and half a line each, and I rarely cast 15 feet of it.
