Reel Recovery is a non-profit organization that provides cost-free fly fishing retreats for men currently battling, or who have battled cancer.

Their PA retreat is June 10-12 at Allenberry on the Yellow Breeches. I've volunteered the past 7 years and started working the retreat full time last year.

We still have 2 slots open for this year's retreat. If you, or anyone you know with cancer, is interested, please go to [www.reelrecovery.org](http://www.reelrecovery.org) and fill out the two applications - one of which is a medical form. Again, this retreat is free for the participants.

If you guys could put a sticky on this, I'd appreciate it. Thanks.

Matt
