Gudge.....What do you have against Josh Fox? Do you know him? Or is it the fact that he made a movie that portrays what you do for a living in a bad light. I worked as a Steelworker , as luck would have it we usually get portrayed in film as some kind of heroes , it's a lie , the truth hurts , steelmaking is an ugly filthy polluting process that did more damage than this fracking does , but , THE TRUTH HURTS. IETS NOT MAKE THE SAME MISTAKES , LET'S TAKE OUR TIME AND DO IT SAFE!!!!
