I don't know why you couldn't use silicone boot spray on flies. Sr. Management (the Mrs.) threw out my old can of Camp-Dri, so I just finished coating my full brim Desert Storm fishing hat with Green Mucilin. It took about a half a container to do it. Having a treated hat allows me to fish in the rain with my \$2500/pop hearing aids.

I think Green Mucilin is the bomb. Dry fly floatant, line dressing, lube the bail spring on an old spinning reel, re-waterproof my hat.

It does it all...
