We just got back from a four day stay. We fished inside the park and had some good days. Nancy fished a Humpy with a dropper and did well with the Humpy. I fished wets and though caught fish, Nancy schooled me, (as usual). The creek stayed clear despite rain on Tuesday and Tuesday night. Sulphers, caddis and midges, I(lots of midges) were the bugs of the day. All in all, a nice trip and we can't wait to do it again. Fishing Creek around Benton is next. :)
