Dear jhedge,

You won't need waders anytime soon. Just buy boots for now and wet wade.

Visit Orvis and LL Bean and sign up for their coupon deals. Eventually you'll get a coupon that will let you get waders to wear with your boots in time for the Fall and be around \$ 200.00 for everything.

That's what I'd do anyway. I bought LL Bean waders last year with a 20% off coupon for \$ 159.00 shipped to my door. I don't think they make that same model anymore but they do have a \$ 200.00 set of waders that will be offered with a coupon deal.

Regards,

Tim Murphy 😊
