Streamerguy,

I did fish it once in the fall. All the fish I caught then (in the project) were near the trestle. I caught many other fish outside of the project though.

Last weekend I caught 6 inch fish pretty much through the whole project, from Rt 62 all the way up to the pump house pool. The few fingerlings I caught back then were probably around 4 inches.

Once again the stretch between the jackdams downstream of the pumphouse to the first pool above the trestle seemed void of fish.

(A couple of Merganser ducks I saw along that stretch didn't help the situation, I'm sure.)
