The section of FFing is from the Reservoir to 200 ft. above Church Rd. The trout are stocked once in the spring and once in the fall. Though there are wild trout there, it's possible they've moved out with the hot weather last week. The water is all open to fishing from the reservoir to Toll Gate Rd. in Hereford Township, however the Toll Gate Rd. access is closed due to bridge construction. There is another section from Toll Gate Rd. across from the little Industrial Park, in the unstocked section of the creek. Everything from Toll Gate Rd. downstream is stocked, but has wild trout also. The population of wild trout is expanding downstream, due in part to the efforts of Perkiomen Valley T.U.
