Anyone ever FF Giving pond in Bucks County? I went the other night with a friend of mine. We put a canoe in. Did not have much time. It is a very cool place. Lots of standing timber and islands. Caught a couple of small LM, small crappies. My buddy had about a 5lb carp on a Motos minnow. Not alot of action. But like I said it is a very cool place to fish. Anyone else ever fish it. If so how did you do?

Thanks,

GenCon
